The Open University

What is CORE

CORE's mission is

to index open access research worldwide and deliver unrestricted access for all.

We are here to support you and to advance the Open Access / Open Research movement

WE ARE

the world's **most used scholarly database** of open access research papers with >20 million monthly active users

WE ARE

a **not-for-profit** scholarly infrastructure dedicated to the open access mission, **adopters of POSI** principles.
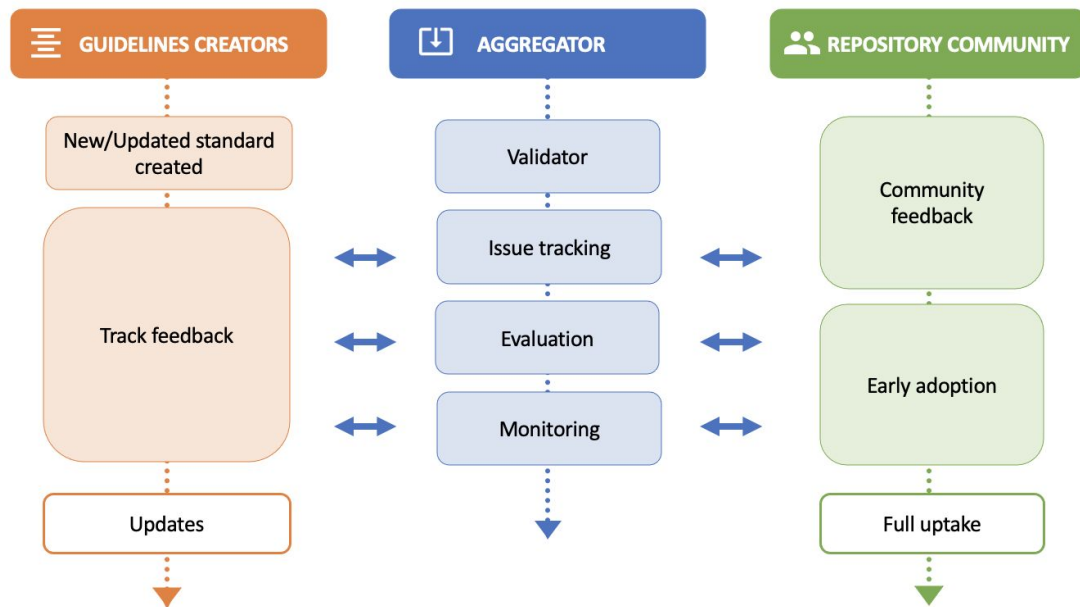

WE

provide solutions for content management, discovery and scalable machine access to research.

WE

serve the global network of repositories and journals by increasing discoverability and reuse of open access content.

CORE

Working together to achieve interoperability

A model for facilitating metadata standards and guidelines adoption

Demonstration

**A model for facilitating metadata standards and guidelines adoption**

DEMONSTRATION

A model for facilitating metadata standards and guidelines adoption

What's next

Looking for volunteers in testing the report

Review the aggregated results

Continuously improve the report

Look and feel

Is the data good?

What other data points?

Is there actions to be taken collectively in specific areas?

THANK YOU
